

The Fort Plain Free Library

What We're Doing

← During COVID-19 →

We'll bring your items out to you!

While access to the building is temporarily limited to library staff, we'll be bringing your items outside when you're ready to pick them up. Staff will always wear masks and maintain social distancing during pickups.

All returning items will be isolated for a minimum of 72 hours to prevent any contact spread of COVID-19. (And any items you check out have been through the same procedure.)

We're quarantining returns until they're safe to check in.

We're taking extra steps to keep your documents safe.

When accepting documents for scanning or copying, library staff will always handle them using masks and gloves. The scanner will be disinfected between uses, ensuring no cross contamination between documents

Monday - Friday 10 a.m. - 5 p.m.
